

POTTY-TRAINING GUIDE

Image Families,

In order to best serve and care for your child, we ask you to please send your child in a pull-up if he/she is potty-training but is not yet fully potty-trained. A potty-trained child will:

- **Tell a volunteer** if they need to use the restroom
- Have been accident free for **one whole week**

If your child is recently potty-trained, please take your child to the bathroom immediately **before dropping them off** in Image Kids, and then **inform the volunteers** of your child's potty-training status. We will support you in the potty-training process by taking your child to the bathroom when he/she needs to go.

Our goal is to provide the best possible care for your child, and that includes maintaining a clean environment where all volunteers can focus their energy on discipling kids in the Gospel.

Thank you for your support!
